## NICARAGUA IN HARD LINES.

Proposition Being Discussed to Issue Large Sums of Paper Money Based Upon Mortgage on Real Estate.

Managua, Nov. 12.—President Zelaya of Nicaragua is sending a commission to the United States and to Europe who will try to sell Nicaragua's national railroads and steamboats.

The commission will be composed of A. Cousin, president Zelaya's father-in-law, steward of the national palace and master of the national military board, and M. C. Matus, minister of the tobacco monopoly, public instruction and the spirit monopoly.

In government circles and in the semi-official organ El Comercio the proposition is discussed of attempting to relieve the present low condition of Nicaragua's paper money, and the financial condition generally, by issuing other large sums of paper money promises-to-pay, based on mortgages on improved real estate in Nicaragua.

There are many indications that there will be another revolution soon in Nicaragua—the third in about three years. The people are restless, and do not want President Zelaya to sell the national railroad and the steamboats. It being claimed that some of the most prominent Nicaraguan officials have been placing large amounts to their credit in Europe.

Will Fight the Bell Company.  
Springfield, Ill., Nov. 12.—The United States supreme court recently declared the patent on transmitters of the Bell telephone valid, and in view of a legal fight in the courts by the Bell company sued for damages for infringement of the patent, representatives of a number of independent telephone companies in Illinois met in this city and organized to fight the case.

Prohibition Party Ignored.  
Chicago, Nov. 12.—Miss Frances Willard, in an interview, said the National Woman's Christian Temperance union convention in Buffalo did not indorse any political party. This was a new departure, the convention having for 13 years declared that its "prayers and sympathy were for the Prohibition party." The nonaction was a surprise to her.

Eleven Suspicious Cases.  
Springfield, Ill., Nov. 12.—Dr. Egan, secretary of the state board of health, is in receipt of a letter from Dr. C. P. Spann of Thebes, Ill., informing him that the writer and another physician have in the last three weeks treated 11 suspicious cases, presenting symptoms of yellow fever. Two had black vomit.

Klondike Miner Robbed.  
Chicago, Nov. 12.—Joseph Ladue, who struck it rich on the Klondike, was robbed of \$700 worth of nuggets in the depot of the Lake Shore railroad. The gold was in a bag in his overcoat pocket and the thief managed to secure it while Ladue was walking from his train to the depot door.

They Should Be Tested.  
Madrid, Nov. 12.—Finding it impossible to raise the sum of £3,000,000 by loan or tax to carry out its original naval plans, the government has decided to build two new cruisers only. The Spanish naval authorities regard the Spanish navy as already superior to the American navy.

State of Nebraska Missing.  
Glasgow, Nov. 12.—The British steamer State of Nebraska, from New York on Oct. 30 for Glasgow, which was due to arrive here on Monday last, has not been sighted. She was last heard from on Oct. 31, when she was spoken in latitude 40.41 north, longitude 68.52 west.

Navigation Suspended.  
Cleveland, Nov. 12.—A severe gale has suspended navigation on Lake Erie. At 4 p. m. the wind reached a maximum velocity of 67 miles an hour. The warning of the coming storm was heeded by vessels. Only two or three minor mishaps to shipping are reported.

King's Daughters and Sons.  
Chicago, Nov. 12.—The interstate conference of the King's Daughters and Sons met at the Wellington hotel, with Mrs. H. B. Goodwin of Chicago as chairman. Representatives were present from the states of Illinois, Vermont, Texas, Louisiana, Michigan and Ohio.

In a Deplorable Condition.  
Berlin, Nov. 12.—The condition of the members of the Turkish embassy is deplorable. None of them has received his salary for over a year, and their debts in this city aggregate over 1,500,000 marks. Their tradesmen are importuning them for money.

Prominent Man Suicides.  
Painesville, O., Nov. 12.—James A. Allen, 52, one of the most prominent business men of this city, committed suicide by shooting himself through

the head. Despondency caused by the death of his wife led him to kill himself.

## HELD A CONFERENCE.

Secretary Sherman and Sir Wilfrid Laurier swap Opinions.

Washington, Nov. 12.—Secretary Sherman and Sir Wilfrid Laurier held a conference with reference to the general relations between Canada and the United States.

Both expressed themselves as very desirous of maintaining the most cordial relations between the two countries, but it was mutually agreed that it would be a long time before all border troubles could be gotten out of the way.

It is believed, however, that the meeting will result in much good, and that finally the ends sought will be attained.

One important statement made by Sir Wilfrid was that England had not cautioned Lord Aberdeen not to place the United States on a tariff equality with England.

It is believed this is one of the things which will be brought about, and that the United States will be greatly benefited thereby.

Death of a Valuable Colt.  
Nashville, Nov. 12.—Malvolio, owned by Jake Marklein and John Fay, died at Cumberland park of catarrhal fever. He was one of the best 2-year-olds in the west and the owners recently refused \$10,000 for him.

The contractors who will build the new Otisclonati, Hamilton & Dayton shops were in the city this morning making preparation to begin work on the car shops. The surveyors began their work this morning staking off the grounds. The contractors will put as many men to work as can be used Monday morning and all will be Lima men. The contractors have also declared it their intention to purchase, as far as possible, their supplies from local business men. The work will be pushed to an early completion.

## CHISEL IN HIS SCALP.

Jake Neubrecht the Victim of an Accident Yesterday.

Jacob Neubrecht, the well known carpenter and contractor, was the victim of an accident about 3:30 o'clock yesterday afternoon, that was not a fatal one only by a very narrow margin. He was directing some work on the lower floor of a west Market street residence when a chisel which was accidentally dropped from the third floor by a plumber, struck him, the sharp point passing through his hat and penetrating his scalp, inflicting a severe wound.

## Evangelist Hunter.

Last evening, notwithstanding the bad weather, a good-sized audience greeted Rev. Austin Hunter at the fourth of the series of meetings now in progress at the Main Street Church of Christ. The meetings continue in interest and all who attend them are pleased and profited by the able preaching of Mr. Hunter.

The meetings are held every night at the Main street church, which our readers will remember was only organized last spring. Since that time the membership has more than doubled.

## A MONEY MAKER.

Was Effie Powers, the Fleet Pacer Owned by A. A. Scott

Effie Powers, the pacing horse of A. A. Scott, is described by the American Horseman, as the best racing and best money making pacing mare that has been on the turf in ten years. For two seasons this mare has been the one consistent money-winner on the half mile tracks. She has time and again paced heats below 2:11 on a half mile ring, and she is so sound, fresh and fast that she can improve materially next year on her grand racing record of the season just closed. This year alone Effie Powers won twelve races out of seventeen starts, and in her last seven races won all in straight heats, pacing all the heats from 2:10 to 2:13.

WILL FIGHT THE GAS LAW.  
A dispatch from Indianapolis states that the conference between the

state officers and representatives from the natural gas belt yesterday to take steps to prevent the waste of gas in sinking oil wells developed the fact that the oil companies will fight the law on the ground that the gas being under the earth and belonging to them under the terms of their leases or purchases, is not subject to legislative control any more than corn or other grain that they might raise on the land and permit to go to waste if they did not care to husb band it.

After considering the entire situation it was decided to push the pending case against one oil company, and if the supreme court sustains the law to proceed against all other delinquents.

## WANT AN IMPROVEMENT.

South Side Citizens Will Meet Next Wednesday Evening.

A meeting of the residents of Union street, south of Kibby street, and other south side citizens, will be held at the south side hose house next Wednesday evening. The object of the meeting will be to inaugurate a movement toward securing an extension of the Ashkins sewer from its present terminus to a

point where the ditch branches off from the line of Union street. Along this street just south of Kibby street there are a number of dwelling houses built directly over the open ditch which in warm weather is very foul and unhealthy. The improvement is badly needed and the citizens' petition should be favorably received by the city council.

## NEW TRIAL ORDERED.

One of the Jurors in the Goldensuppe Case Ill.

## NEW PANEL IS ASKED FOR.

Don. Mack Will Have to Tell Her Story Again, Unless She Should Refuse to Go Upon the Witness Stand Again.

New York, Nov. 12.—The trial of Maria Thoren for the murder of William Goldensuppe, which was begun last Monday at Long Island City, was suspended owing to the dangerous illness of Juror Magnus Larsen. The jury was discharged and a new trial ordered.

Juror Larsen was taken ill and court adjourned on that account. Physicians called to attend him found that he was suffering from appendicitis. At the opening of court it was announced that Larsen was unable to attend, and an adjournment was taken.

An operation was successfully performed on the sick juror and it is expected that he will be able to leave his bed in two weeks.

District Attorney Young notified the other 11 jurors to be present in court and receive their discharges, and he then asked the court to call a new jury.

All the evidence for the prosecution, whose case was nearly completed, will have to be introduced again, and Mrs. Mack will be required to go on the stand and tell her horrible story anew. Should Mrs. Mack refuse to go on the stand the confession she made can not be used against Thoren.

## Liquor Being Considered.

New York, Nov. 12.—Senators Orville H. Platt of Connecticut, James K. Jones of Arkansas, and Representatives Walter Evans of Kentucky, Charles W. Russell of Connecticut and Benton McMillin of Tennessee, of the joint committee of finance and ways and means, met at the Murray Hill hotel to hear the testimony of business men as to whether or not liquor should be taxed in commodities other than beverages. The committee went into executive session as soon as it convened.

## Will Tolerate No Obstruction.

Vienna, Nov. 12.—When the reichsrath reassembled the president rejected a series of motions upon the part of members of the left for a rollcall of votes, declaring that it was the duty of the president to maintain parliament in a condition to perform its functions, and not to treat the rules of procedure as though they were established for purposes of obstruction.

## Brechers' Law Unconstitutional.

St. Louis, Nov. 12.—In the court of criminal correction Provisional Judge Schneider sustained a motion to quash in the cases of the 15 defendants recently arrested for poolselling and bookmaking, and they were discharged. He declared that the brechers' law, enacted by the last legislature, under which these arrests were made, is unconstitutional.

## Anarchists Held a Meeting.

## Theosophy.

It would seem natural that theosophy should come to us in the wake of spiritualism and that both should seek in the occultism of the far east the stimulus of mystery necessary to the propagation of the one and the rehabilitation of the other. But here we must be careful not to wrong the new gospel, for theosophists, we believe, are now anxious to disavow connection with spiritualism, though "to explore the hidden mysteries of nature and the latent powers of man" is one of the prominent aims of the brotherhood. The sibyl of the society we know, at any rate, dabbled largely in necromancy and spiritism, and in her work, "Isis Unveiled," much space is given to divinations and to the laudation of the occult sciences of India and Egypt. Moreover, when Mme. Blavatsky accompanied Colonel Olcott to India, her journey there was marked by such an exercise of so-called supernatural powers as to lead the Psychological Research Society of England to send out some of its trusted members to investigate the phenomena, an action fatal to the pretensions of the founder of theosophy. Monrose Conway has since also told us how the high priestess of the new religion was laughing in her sleeve while she was reading reports of these alleged miraculous occurrences to her devotees in England.

It is disingenuous, therefore, in the adherents of theosophy to disclaim kinship with spiritualism. Is it not claimed for Mme. Blavatsky that she spent 80 years of her life in the study of the occult sciences, and that in propagating her gospel she was the chosen medium of a mysterious brotherhood of adepts, called mahatmas, who in Tibet had reached an incredible age through the practice of magical arts?—Self Culture.

## Seemed to be on Fire.

"I suffered very much with a blood disorder. At times my skin seemed to be on fire. I saw Hood's Sarsaparilla advertised and determined to try it. I found that it purified my blood and relieved that tired feeling. I have given it to my little girl for pain in the side and it relieved her." Dell C. Umbaugh, Nankin, Ohio.

## Londoners and Rain.

The other day I saw, below the rim of my own umbrella, three or four men walking indolently along with their own tucked under their arms. It takes more than a slight wetting, sometimes, to make a Londoner lift his umbrella. As for damp feet, I marvel why pulmonary diseases are not still more frequent. A London gentleman said to me the other day, "I can't understand why you Americans are so afraid of getting your feet wet." "Afraid!" I echoed. "Why should everybody who wants to avoid an illness not be afraid?" He laughed, shrugging his shoulders. "I am constantly getting my feet wet," came his answer, "and I never have found any bad effects from it."

He may not have found them, I reflected, out that does not prevent England from being a country which tuberculosis has conspicuously cursed. My friend is only one of a great multitude. They shrink with abhorrence from overshoes, and they would as soon don beaded moccasins for the street as arctics. Yet there is many a day when no boots, however stout, can resist the incessant downpour above and slush below. And such boots as are worn I marvel how any human feet can incase themselves habitually in their heavy, thick soled roughness. Among the lower classes, and particularly policemen, you see rigid, ironlike footgear that looks more impracticable than the most cumbersome sabot of the French peasant.—Edgar Fawcett in Collier's Weekly.

## Do You Know

that tetter, eczema, and all similar skin diseases, can be cured by Carter's Herbar Ointment; it soothes and restores the tissues to their healthy condition and cures piles. It is also valuable for croup and whooping cough, hoarseness, bronchitis, and for soreness of the chest, back and shoulders. Price 25 cents. For sale by William M. Melville and Howard B. Hovey.

## A Blessing For the Ladies.

Thousands of ladies are using Brazilian Balm. For soreness, pain, bearing down and many kinds of trouble, it acts like a charm. A 50 cent or dollar bottle often does more good in one week than any other remedy does in months. It goes right to the spot, removing all inflammation. Mrs. Geo. W. Roberts, of Wilmington, Del., says, "A strong solution of Brazilian Balm and warm water used as an injection has done me more good than all the remedies and prescriptions I ever tried."

## SIMPLICITY ITSELF.

A Simple, Harmless Remedy, Yet It Cures the Worst Cases of Dyspepsia and Indigestion.

Dr. Jannetia, who has made a life study of stomach troubles, says: "All forms of indigestion really amount to the same thing, that is, failure to completely digest the food eaten; no matter whether the trouble is acid dyspepsia or sour stomach, belching, of wind, nervous dyspepsia, or loss of flesh and appetite; a person will not have any of them if the stomach can be induced by any natural, harmless way to thoroughly digest what is eaten and this can be done by a simple remedy which I have tested in hundreds of aggravated cases with complete success. The remedy is a combination of fruit and vegetable essences, pure aseptic pepsin and golden seal, put up in the form of pleasant tasting tablets and sold by druggists under the name of Stuart's Dyspepsia Tablets. One or two of these tablets should be taken after meals and allowed to dissolve in the mouth, and mingling with the food in the stomach, digest it completely before it has time to ferment, decay and sour."

On actual experiment one grain of Stuart's Dyspepsia Tablets will digest three thousand grains of meat, eggs and similar wholesome foods.

It is safe to say if this wholesome remedy was better known by people generally it would be a national blessing, as we are a nation of dyspeptics and nine tenths of all diseases owe their origin to imperfect digestion and nutrition.

Stuart's Dyspepsia Tablets are not a secret patent medicine, but a fit cent package will do more real good for a weak stomach than fifty dollars' worth of patent medicines and a person has the satisfaction of knowing just what he is putting into his stomach, which he does not know when widely advertised patent medicines are used.

All druggists sell Stuart's Dyspepsia Tablets, full sized packages 50 cts. A little book on cause and cure of stomach troubles mailed free by addressing The Stuart Co., Marshall, Mich.

## As to Closures.

He was in doubt. He didn't know whether he should be angry or pleased and a great deal depended upon it. They were sitting on the sofa together, and once, when the conversation seemed to drag a little, he had suggested:

"Don't you think it is rather close tonight?"

"It might be closer," she replied. It was a terrible predicament in which to place a man who was anxious to make the best of his opportunities. Should he take advantage of what seemed an invitation to get a little nearer to her or should he be angry at being termed an "it?"—Chicago Post.

## A Tale of the Sea.

Two American captains were recently relating their experiences on different voyages. One of them told the following story: "About 1 p. m. on March 2 my ship was proceeding under full sail when a cloud about the size of a man's hand was observed on the horizon. It came on, and as it neared the ship we discovered that it was composed of locusts. They settled on the sails, and you couldn't see a bit of canvas for them. When they flew away, there was not a stitch of canvas left on the yards." "Ah," said the other captain, "I can quite believe that, for at about 3:30 p. m. on March 2 my vessel was proceeding under full sail when we observed a small cloud on the horizon. As it approached the ship we discovered that it was a cloud of locusts, and as they passed our vessel we saw that every man Jack of them had a pair of No. 1 canvas trousers on."—Brazil Nut.

## Saved A Boy's Life.

Mrs. Captain H. Hubbard, of Milford, Del., says: "Brazilian Balm saved my boy's life. He began just like the one we lost with croup. We gave him a few doses. He quickly dropped to sleep, and was all right in the morning."

## TORPEDO SCANDAL.

Continues to Be the sensation of the Cretan Capital.

Athens, Nov. 12.—The torpedo scandal continues to be the sensation of the Cretan capital.

The committee of investigation decided that two officers, Captains Rastoupouli and Anastasi, must be tried by court-martial on the charge of culpable negligence.

Captain Rastoupouli, who is now being tried, has asked that Prince George of Greece, who commanded the torpedo boat during the war, and who was, previous to the war, a great favorite with the masses, be called as a witness.

The court has refused to do this, and the Greek newspapers are publishing vigorous articles on the subject, the anti-dynastic Hestia going so far as to demand that Prince George be tried by court-martial.

The prince is known to be deeply affected by the scandal, and by the attacks made upon him and the royal family generally, in consequence of this fresh example of the unpreparedness of Greece for an outbreak of hostilities.

## ALL WERE KILLED.

Horrible Fate of a Wedding Party in Russian Poland.

Bielostok, Russian Poland, Nov. 12.—A wedding party was returning from the church to the home of the bride. All were in one wagon, a huge vehicle drawn by eight horses. The road along which they drove crosses the railroad track on the level, and the driver, either through carelessness or ignorance of the train schedule, pushed his swiftly moving horses upon the crossing just as the express was coming up.

The locomotive struck the vehicle squarely, killing many members of the party outright and maiming others so that they soon expired in frightful agony. Not a member of the party escaped. The victims number 30.

## The Crew Rescued.

Port Stanley, Ont., Nov. 12.—The schooner Groton of Detroit, which left Cleveland laden with slack coal for London, Ont., was caught in the gale and came to anchor 12 miles west of this place, where she foundered. The crew of six men took to the yawl boat and were rescued.

## Scene of Beecher's Maiden Sermon.

## MARKS' PATENT ARTIFICIAL LIMBS

WITH RUBBER HANDS AND FEET  
Are natural in action, noiseless in motion, durable in construction and the most comfortable to wear.

To A. A. MARKS:  
DEAR SIR: I was a professional tight-rope walker and acrobat before I lost my leg, and I do not allow the loss of a leg to handicap me to seek another occupation. With your patent artificial leg, I can walk a tight rope nearly as well as I ever could. I feel safe and sure on my rubber foot, no matter where I place it. I consider your invention of the rubber foot the most valuable and important to persons who have lost their natural limbs.  
Respectfully yours,

## INSPECTION TRAIN.

L. E. & W. Officials Enroute to Sandusky To-day.

### SUIT AGAINST THE C. & E.

For Twenty Thousand Dollars for Injuries Alleged to Have Been Sustained by Fireman Hammet in a Wreck at This Place.

A special train left this city over the L. E. & W. at 1:12 o'clock this afternoon with general superintendent D. S. Hill, assistant general superintendent H. F. B. Kell and division superintendent S. R. Kramer on board, with Supt. Hill's private car, enroute to Sandusky, and the train is in charge of conductor E. H. Mattice, brakeman Charles Durbin and Will Doty, engineer Mart Cullen and fireman Emmett Dugan, with passenger engine 18.

The crew will lay over at Sandusky until Sunday morning at 2 o'clock, when they will take an excursion train to Indianapolis and return. They will return here Monday in charge of train 133.

#### HE WAS INTOXICATED.

John Wygant, a farmer living two miles north of Perrysburg, was killed about a mile north of Perrysburg early yesterday morning by being struck by a C. & E. D. passenger train. The man was badly intoxicated and left his home to walk to Perrysburg. When he left home was the last time he was seen alive. He was found later by his brother. The body was frightfully crushed and mangled. His head was severed and was found on the track several feet from his body. The unfortunate man was 44 years old and leaves a wife and four children.

#### SUES THE C. & E.

Late Wednesday afternoon in the circuit court at Huntington, Ind., a \$20,000 damage suit was filed against the C. & E. Railroad Co., the plaintiff being Edward N. Hamlet, formerly employed by the defendant company as a fireman. Hamlet claims in his petition that on the 16th day of November, 1895, a collision occurred at the junction of the C. O. S. and C. & E. near this city and that a slash bar overhanging on the side of the tank of the engine he was on, was thrown forward by the collision with great force and struck him on and about the left groin, inflicting a permanent injury which necessitated a surgical operation. The plaintiff alleges that the injury caused him an expense of \$325 for medical attention and \$800 for loss of time.

#### HIS FOOT CRUSHED.

Alfred Warwick, a fourteen-year-old boy living at Columbus Grove, while stealing a ride on freight train No. 97 yesterday met with an accident that will cause him to be crippled for life. He, with three other small boys, jumped on the freight near the depot and rode out to the south passing tracks. In attempting to jump from the train he slipped and his left foot was caught beneath the moving wheels. His toes were cut off and his foot so badly crushed that it was necessary to amputate the foot just below the instep. The boy was taken to his home and the operator at the Grove nor the Lima officials were not notified until late last evening.

#### TWO INSPECTION PARTIES.

Superintendent of signals W. McC. Grafton and superintendent of telegraph A. M. Schoyer, of the Pennsylvania lines, are out on their annual inspection of the interlocking switches and telegraph offices. They left Chicago on a special train yesterday accompanied by train master Charles E. Watson and chief dispatcher Will H. Tigar, and arrived in this city this morning. Another special train which left Chicago yesterday over the Pennsylvania carries a party of freight officials on their annual inspection. This party stopped at all stations and passed through Lima yesterday afternoon.

With the party inspecting the signals and crossings were representatives of the Insurance Companies, who have risks on the Pittsburg buildings. They inspected the depots and passenger stations to determine whether the proper fire precautions are made and whether or not the buildings are over insured.

#### ORDERS FOR LOCOMOTIVES

The Baldwin Locomotive Works have within the past few days booked orders for fifty-six locomotives. The orders include twenty-one locomotives for the government state railway of Finland, the first order of any magnitude that has ever been placed in this country from that place. Another order is for twenty-four heavy broad gauge locomotives for the government of Brazil, while the third order is from the Grand Trunk railway of Canada and is for ten locomotives. All of these orders call for the completion and delivery of the locomotives by January, 1898.

#### HISTORICAL PRIVATE CAR.

The private car of general manager S. O. Stickney, of the Chicago & Great Western, was in the city yesterday morning on the C. & E., enroute to St. Paul, Minn. The car is No. 100 and is quite a curiosity. The original car was used on a southern railway during and just after the war, and was remodeled and fitted with modern

appliances and is now quite cozy. The car is kept because of its history. The party on board included general manager Stickney, the general superintendent, the passenger traffic manager and three clerks.

#### NOTES

Mr. and Mrs. Geo. Hanson, of north Elizabeth street, entertained as their guests to-day Mrs. Harvey Harper, of Bellevue, and Mrs. Thos. Harper, wife of trainmaster Harper, of the D. & L. N.

Messrs Joseph Woerner, Gus Lutz, Gus Heltzer, A. Weisbaum, Henry G. Wemmer and Henry Frush last night attended the ball and grand opening of Carl Bildstein's new hotel at Lock 16, three miles north of Delphos. Joe Woerner is "half sick" to-day.

#### LIMA PEOPLE

Capture the Prizes at the Delphos Cake Walk.

The cake walk given at Flick's hall, says the *Delphos Herald*, under the management of Ed Davis, of Lima, was a nicely conducted affair and was well attended, a large number of colored people from Lima and Van Wert being present. Only four couples contested for the prize and some fancy stepping was done. Al Lawrence and Miss Emma Rice, of Lima, winning the honors. The burlesque walk was won by Will Blair and Miss Emma Rice, of Lima. A dance followed the walk. A mandolin club from Lima furnished the music.

#### TALES OF THE TOWN.

## MAKES EXCUSES.

Mr. Kayler's Reply Not Substantiated by Facts.

### LITTLE RELIEF IN SIGHT.

The Railroad Commissioner Grants the City One Additional Watchman, but Leaves Many Death Traps Unguarded.

R. S. Kayler, state commissioner of railways and telegraphs, has given his final answer to Lima's petition for protection at several of the many dangerous railroad crossings in this city. The ordering of a watchman for the McDonel street crossing with the P., Ft. W. & C. is the only reasonably reliable relief he has granted. The following, from his office at Columbus to city clerk O. E. Lynch, is Mr. Kayler's decision:

"In answer to your petition from your city council, asking for better protection at various crossings in your city, please permit me to advise that I have decided upon the following, after having gone over the matter carefully and taking all the conditions and surroundings into consideration:

McDonel street—Where it crosses the P., Ft. W. & C. railroad; to be protected by a watchman from 6 a. m. until 6 p. m.

Pine and Jackson streets—To be protected by a signal, or semaphore, to be operated by the watchman stationed at the depot.

Main street—C, H & D. company will protect this street by flagman while doing shifting over same.

Market street—This space is narrow and I have learned that there is a good deal of watchman at this point at the present time and that there has not been an accident at this point in the past fifteen years.

Bellefontaine avenue—We have a copy of the order issued by G. R. Haskell, to all their employees to flag over this crossing in all cases when shifting over them.

Metcalfe and Third streets—These streets are in South Lima and are crossed by the ladder trucks in the yards of the L. E. & W. R. R.; not much traveled and the principal trains are in switching, this is at a slow speed and there are almost always some of the switching crew near the crossings. I have, however, ordered that these switchmen shall protect the crossings while doing work over them.

St. Johns avenue—This crossing is protected by a bell and I have ordered that it be kept in good repair and working order.

Wayne avenue—Inasmuch as the Lima Street Railway is about to lay its tracks over the tracks of the steam roads at this point, I have decided to let the matter at this point remain in abeyance until this work is completed and see what the conditions and surroundings are at that time.

Trusting that this will be satisfactory to your people and thanking you for the patience you have manifested in waiting for the decision, I am, yours very respectfully,

R. S. KAYLER, Commissioner.

The commissioner has certainly been sadly misinformed with reference to the Market street crossing, where the council petitioned to have gates placed and operated day and night, as at Main street and P., Ft. W. & C. Mr. Kayler says there has not been an accident at this crossing "in fifteen years." He was certainly not informed that, on August 11, 1894, less than four years ago, a wagon on which Isaac Butler and his step-father, William Huffman, were riding was struck by a car of cars on the L. E. & W. at this crossing and that Huffman was instantly killed and Butler was so badly injured that he laid at the point of death for several days. Gates would have prevented this fatal accident and the warning given by their descent would in all probability have prevented the accident which befell Dr. Newell near this crossing.

#### IN WOODLAWN

The Remains of J. R. Ashton Will be Interred To-morrow.

The funeral services of John R. Ashton, an account of whose death appeared in the *TIMES DEMOCRAT* Wednesday, will be held from the Ashton residence on south West street at 1 o'clock to-morrow afternoon. Rev. W. G. Waters, of Trinity church, will conduct the service, and the remains will be interred in Woodlawn cemetery.

#### ATTENTION, EX-SOLDIERS

#### STREET TALK

President Sam Lober, of the Barbers' Union, has a handsome little four year old son who has acquired a great habit of laying awake at night and asking questions. The other night after the family had retired for the night and Sam had just fallen asleep, the little fellow cried him. "Well, what is it?" asked Sam. "What holds the stars up?" was the inquiry. Sam said he didn't know and went to sleep again, only to be awakened by another call. "Oh, papa!" "Well, what's the matter now?" asked Sam, sleepily. "Where does the wind stay when it doesn't blow?" E. M. Ayres, the asphalt paving contractor who constructed the Spring street improvement, arrived in the city yesterday afternoon on business. Mr. Ayres' paving crew is now fulfilling a paving contract at Houston, Tex.

Quite a number of Delphos gentlemen have become members of the Lima Lodge B. P. O. E. recently, and we understand there is a movement on foot to establish a lodge in Delphos, which will be done as soon as the required number of charter members have been secured. Twenty Elks as charter members are required to institute a new lodge. At present there are about ten in Delphos.
